DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 recites the limitation "a computer" in lines 5-6. There is insufficient antecedent basis for this limitation in the claim. It is not clear whether the computer in line 5, is the same as the "first computer". Clarification or correction is required. Claims 2 and 3 have similar problems.

Conclusion

3. Applicant's argument on page 5, that Lamming's fails to teach or suggest the generic access request as recited by the claim, wherein the generic access request does not include the location of the target data and not assigned with any particular document found to be persuasive.
